

# TEAMSHIP FOR LEADERS

## LEADERSHIP DEVELOPMENT

### Lead a winning team.

**There is a view held by some that teams develop on their own through chance or good luck. This is not the case.**

An effective team requires not only good leadership but willingness by the members of that team to wholeheartedly engage and participate.

The concept of Teamship is made up of the behaviours and attitudes required to be part of an effective team.

Just as Leadership is what it takes to be a Good Leader, Citizenship is what it takes to be a Good Citizen, so Teamship is what it takes to be an Effective Team.

Being a great Teamship Leader is an important role to play in ensuring everyone is making their best contribution and encouraging and supporting them to do so.

This 2 day learning experience will ensure your Managers and Team Leaders unlock both the willingness and the capability to drive a positive 'We' culture. They will explore the importance of 4 clusters – Direction, Skills, Leadership and Ethos - and develop a sound Action Plan for improvement within their teams.

2 Day course

Comprehensive materials

Thought-provoking learning experience

### TARGET AUDIENCE

This facilitated course with trainer led presentations, activities, group work, practical discussions and integrated work based situations is tailored for Managers and Team Leaders in the organisation.
